All of our Cleaning Packages are a **Green Clean** - We are eco friendly, green cleaners. We bring all of our own green supplies so that you never have to worry about harmful cleaning chemicals and residues. You don't have to be concerned about being allergic to our cleaning supplies or having harsh chemicals in your home, on your surfaces, or around your children or pets.

Deluxe Clean is a "spring clean" of ALL rooms and should be done at least once a year. It is highly recommended at the beginning of a recurring - service program. In the Deluxe Clean, many of the "dusting" tasks of a maintenance clean are replaced with "hand - washing, for a deeper clean: kitchen & bathroom cabinet exteriors, blinds, baseboards, window - sills, and much more.

Willow Clean is a "total home maintenance" cleaning package. We clean ALL rooms in your home. It is our most popular plan and helps to maintain your home in between Deluxe Cleanings.

Flex Clean is a maintenance plan that focuses on the CORE and often hardest rooms to clean. We clean the Kitchen and all Bathrooms in the same way as the Restore cleaning along with 1 additional room of your choice. This additional room is typically the family room or master bedroom. In addition we vacuum and mop the floors in the entire home. Please read more about this popular cleaning package on our website for complete details.
